

SELF CONTAINED

BREATHING APPARATUS

Frontier

The Frontier's few and uncomplicated components makes it easy to use. The compact demand valve (CDV) is ISI's newest high flow regulator that's the smallest on the market.

- *Features Include:*
- Several Facemask & Cylinder Options
- High Performance - Low Breathing Resistance
- Simple to Use and Maintain
- Economical
- Light Weight
- Proven performance

The Frontier can be completely customized to meet your needs through a wide range of options and accessories (see accompanying Frontier configuration chart for options.)

The Frontier is an open circuit, positive pressure, compressed air SCBA which is **NIOSH/ MSHA approved** and designed for non-firefighting applications.

Designed to provide respiratory protection for hazardous environments, including those deemed Immediately Dangerous to Life and Health (IDLH), Frontier is a safe, reliable and economical option.

SCBA Protective Wallcase

The Encon Wallcase provides a secure and convenient storage area for your scba (not included with scba, sold separately).

-SOLD SEPARATELY -

- Features include:*
- Superior Protection
- Secure Closure
- Convenient Size
- Rugged Design
- Tamper Seal
- Inspection Window
