

# CONVERSION PKG - AC13A

The KIT-A Conversion Package “**AC13A**” includes Hood 1A3, Gaskets 1BRV, and Chain & Base Assembly 1EFP1 to meet current Chlorine Institute Emergency Kit-A specifications for **Devices 1**. AC13A works with all existing components of Emergency Kit-A and replaces Kit-A Hood 1A2 and Chain & Base Assembly 1EFP1.

## PART# AC13A

### CONVERSION PACKAGE INCLUDES:

- 1 pc. 1A3 Hood Assembly
  - 2 pcs. 1BRV Gaskets
  - 1 pc. 1EFP1 Chain & Base Assembly
  - 2 pcs. Instruction Booklets
- 1 Carton 18” x 18-1/2” x 36”, 48 lbs.

### HOOD ASSEMBLY 1A3 (Replacing HOOD 1A2 & Yoke 1C1)

- Hood and yoke integrated into one piece allowing for the adjusting of cap screws independently regardless which chain link is attached.
- Accommodates Cylinders with oversized neckrings.
- Fits over cylinder with Valve Protective Housing on.
- Forged steel elbow for added protection of hood relief valve.

### GASKET: 1BRV (Enhanced)

- Gasket has been modified to decrease possibility of roll-out and to improve overall performance.
- Replaces gasket 1BMV (no longer available).

### BASE ASSEMBLY: 1EFP1

(Replacing Base Assembly 1EFP and Ramp 1R)

- Flat base design allows for more stable, adjustable platform for cylinders to 15” in dia.
- Lighter but stronger chain dramatically lessens weight of entire unit.

**Note: Conversion Package AC13A does not fit into the steel Emergency Kit Boxes manufactured prior to 1993. Box 151-A is available separately.**
