

CONVERSION PKG - BC14A

The KIT-B Conversion Package “**BC14A**” includes the new spring loaded Yoke Assembly 28C and fusible plug Hood 14A to meet current Chlorine Institute specifications for Devices 12 & 4. BC14A works with all existing components of Emergency Kit-B including valve Hood 12A and all gaskets. The Conversion Package replaces Kit-B Yoke Assembly 12C and Hood 4A.

PART# BC14A

CONVERSION PACKAGE INCLUDES:

- 1 pc. 28C Yoke Assembly
- 1 pc. 14A Hood
- 2 pcs. Instruction Booklets
- 1 Carton 18" x 18-1/2" x 36", 45 lbs.

YOKE ASSEMBLY 28C (Replacing Yoke Assembly 12C)

- Bar Assembly is spring loaded for easy installation.
- Assembly contains only 2 bolts and no wrenches required.
- Adjustable to fit on inside of the chime at any angle and can address valves as well as fuse plugs.
- Made of Aluminum and 8 lbs. lighter than original version.

HOOD 14A (Replacing Device 4)

- Hood 14A (applied with Yoke Assembly 28C) completely replaces Device #4.
- Hood completely encapsulates the fuse plug without contact or having to anchor on the plug itself like Device 4.
- Hood works with existing Kit-B 4-12BMV Gasket

Note: Conversion Package BC14A does not fit into the steel Emergency Kit Boxes manufactured prior to 1993. Box 151-B is available separately.
